CROSS-SECTIONS

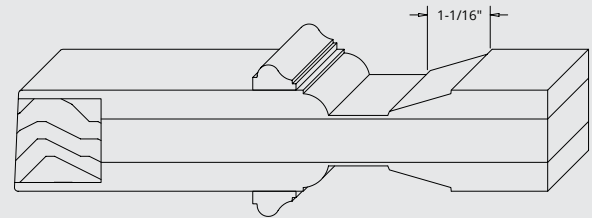

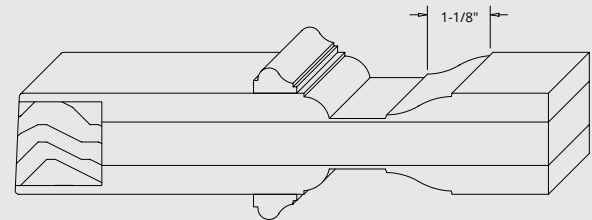

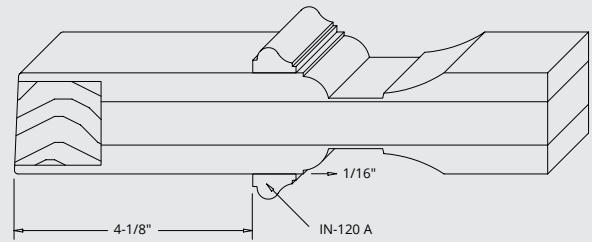

Standard

Delux

NOTE:

Delux version is available for New England Doors only

THE INSPIRED SERIES

The **Octavia Lane Series** holds a special place in our door collection. Inspired by our *RTR Klasik* door series, the Octavia Lane is defined by its exquisite lines, and belongs where extravagance and wealth are a daily reality. It is available with 3-different cross-sections and 2-front layouts: **New England** and **Due West**. Additionally there is a *Delux* option available as well. You can truly appreciate the beauty when you see Octavia in person. We encourage you to visit our showroom, so that we can show you what's its like to fall in love.

OCTAVIA LANE

Octavia Lane Series has been added to our collection on February 9, 2016. This very pleasant to see line completes Victoria's door selection in a very special way. Octavia's true beauty can only be appreciated in person. This particular line is also available in the Delux option where raised applied moulding makes this door even more attractive and distinct.
